Church Safety Summit

Ben Crawshaw

- Director of content at The Rocket Company
- 2 Decades of ministry experience
- Love small churches
- Passionate about helping churches and making a difference

My goal today...

is to turn hard-to-understand
into easy-to-implement.

If you stay until the end...

I'll share great procedures to
put in place around **your** church.

What makes today different?

I'm going to talk **practically**,
not **philosophically**.

Church safety is overwhelming...

- I used to think about it a lot.
- But I didn't DO anything.
- I didn't know what to do!

It's like hearing a weird sound
when you start your car...

I'd ignore it and
hope it went away.

I used to read or hear about stuff that happened at other churches and think...

- "It'll never happen to me."
- "God will protect my church."
- "I'm not even sure where I'd start, anyway."

Church leaders have **other things to focus on...**

- Sermons
- Staff development
- Pastoral counseling
- Volunteer recruitment
- Missions
- Discipleship
- Addiction recovery
- Family ministry

Here's what I've discovered...

- Church safety is a spiritual issue.
- As a church leader, I am to shepherd my congregation and staff in as many ways as I possibly can.
- My church is not above the law or good business practices.

I've met with...

- Pastors
- HR Directors
- Lawyers
- Insurance Agents

Just to name a few.

Why? To give you
tangible steps in a
complicated arena of ministry.

I have 50 insights I could share with you. For the sake of time, I'm going to focus on 5.

1. Utilize background checks.

Comply with federal laws.

Know your obligations.

Know their rights.

Use a company that screens across several checkpoints...

- National Criminal Database Search
- National Sex Offender Registry Search
- SSN Verification
- Address History Trace

2. Find an experienced church lawyer who you can run things by.

Document your **hiring process**.

Create an employee **handbook**.

Start today with employee
performance reviews.

Document your **firing process** (in a way that points back to your employee handbook and performance reviews).

**3. Get a third-party
walkthrough of your facilities.**

Keep a running list of the **top 3 things** that need to be addressed.

Establish church **volunteer workdays**.

Create a church **usage agreement**.

4. Don't try to tackle child safety by yourself.

Child Safety (Module 4)

20 ready-to-use documents!

- Discipline Guardrails
- Classroom Cleanliness
Guardrails
- Handicap & Special Needs
Guardrails
- Security Stickers
- Interview Guide
- Teacher Position
Description
- Ministry Team Commitment

**5. Know your
insurance options.**

Think through your **activities**.

Calculate your **risks**.

Talk to an **agent**.

- Commercial property
- Crime
- General liability
- Automobile
- Umbrella
- Workers compensation
- Cyber security
- Professional liability

Let me ask you a question...

Would you like to protect the
people who come to your
church week after week?

The past hour...

- We've covered a lot, but there's so much more to talk about!
- Even if we had all day, we couldn't cover everything.
- You need more than just a "training."
You need resources (for you and your team).

**SAFETY
ROCKET**

Safety Rocket is a powerful online resource that compiles, curates, and clearly explains some of the **vital** information your church needs to be protected!

1. Information
2. Education
3. Application
4. Operation

1. How do you do volunteer background checks properly, thoroughly, and legally?
2. How do you fire a staff member ethically, respectfully, and legally?
3. Does your church staff know where fire extinguishers are located (and how to operate them)?
4. How should children's ministry volunteers handle toddlers who need to go potty?
5. Are you covered if your student pastor gets in a wreck in your church van?
6. What do you do if a shooter enters your church?

**...and about 200 more questions
like these!**

How many churches are ready if a congregation member sues a staff member for malpractice as a result of their pastoral counseling?

How many churches have an employee handbook?

How many churches have a written plan for what to do if a suspicious person enters their children's ministry area?

In creating this product...

I met with North Point Community Church, a church with over **450 people on staff.**

And I thought about my dad's church, which has **125 total members.**

**I wanted a product that
would be great for both.**

If all this did was...

- Help you take care of the people you've been entrusted with...would it be worth it?
- Help you protect your congregation with the same vigilance you protect your family...would it be worth it?
- Fight the reputation of churches that operate without diligence, wisdom, or caution...would it be worth it?

A **safe foundation** will help you grow without putting your staff or congregation at risk.

You can see why
it's a good deal at \$793!
